

Capabilities Statement

- (1) Implement testing strategies, that work the first time.
- (2) Assess project readiness to ensure proper planning saving time and money.
- (3) We have the expertise to manage large-scale projects and are committed to achieving excellence in every aspect.

Core Competencies

- Large Scale Project Planning
- Full-Service Quality Assurance/Testing
- Automation, Regression, UAT
- Defect Management
- Change Management Control

Differentiators

We are relentless in our pursuit of quality. We plan effectively eliminating the cost and expense of rework. We get it right the first time.

Experience

Florida State Department Feb 2024 September 2024

Established Quality Assurance Framework, implementing strategy for manual, automation, regression, and UAT testing. Defined Defect tracking process and resolution across multiple vendors. Secured nine million Dollar renewal contract.

Midsize Nonprofit Education Organization – May 2012-March 2020

Defined and Implemented QA Automation Strategy reducing testing time by 85% saving 125,000 within the first year of implementation, increasing quality by 300%. Decreased production incidents from 300 a week, to less than 10 a month. Implemented Dev/OPS, Agile, CI/CD Pipeline automated regression. Upgrade legacy systems to AWS Cloud.
